Dear Paradise Irrigation District Board of Directors,

The Butte County Fire Safe Council offers its support and expertise in the vision of creating a defensible space and firewise landscape demonstration structure in the PID garden. This is an important idea to further community outreach and education as no such demonstration is available in Butte County at this time.

We will assist with the effort by providing technical advise and direction to resources that are appropriate for firewise building construction and education outreach.

Sincerely,

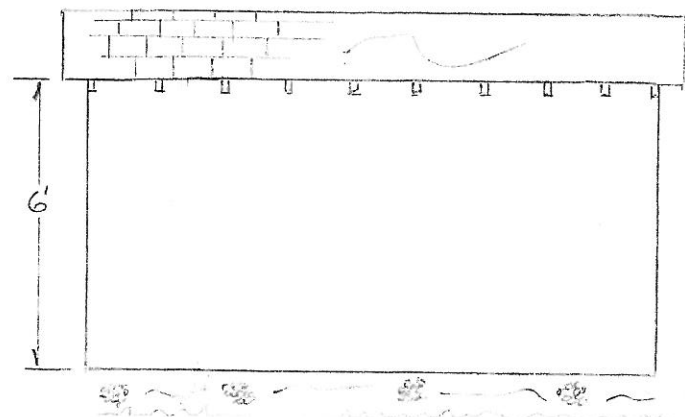

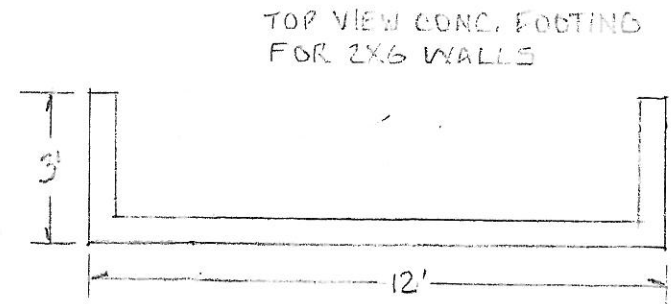

A handwritten signature in cursive script, appearing to read "Calli-Jane DeAnda".

Calli-Jane DeAnda  
Executive Director  
Butte County Fire Safe Council
