AGENDA

REGULAR MEETING PARADISE IRRIGATION DISTRICT BOARD OF DIRECTORS PID BOARD ROOM 6332 CLARK ROAD, PARADISE, CA 95969

WEDNESDAY, JUNE 15, 2022 - 8:30 AM

- The Board of Directors is committed to making its meetings accessible to all citizens. Any persons requiring a special accommodation to participate, is requested to contact the District Secretary at (530) 876-2039 at least 48 hours in advance of the meeting.
- The following options are available for members of the public interested in participating in the meeting remotely:

Via Zoom Meeting: https://us02web.zoom.us/j/88192841237

Telephone: +1 669 900 6833 US (San Jose)

Meeting ID: 881 9284 1237

To improve participation during the meeting, we will be accepting public comments from Zoom Meeting participants during the meeting. The Board cannot take action on any matter not on the agenda. Public comments specific to an agenda item will be read directly after the agenda item and before the Board votes on an item.

Via Email or Telephone: Public comment will be accepted by email with the subject line PUBLIC COMMENT ITEM NO. ____ to gborrayo@paradiseirrigation.com or telephone (530) 876-2039 prior to 8:00 a.m. on the day of the meeting.

1. OPENING:

(Pg. 4-7)

- a. Call to Order
- b. Public & Board Members; please silence your cell phones
- c. Reflection and Pledge of Allegiance
- d. Roll Call

2. PUBLIC PARTICIPATION:

Individuals will be given an opportunity to address the Board regarding matters not scheduled on the agenda, although the Board cannot take action on any matter not on the agenda. Comments will be limited to 3 minutes per speaker. Opportunity for public comment on agenda items will be provided at the time they are discussed by the Board with comments limited to 3 minutes per agenda item.

- (Pg. 3) 3. APPROVAL OF CONSENT CALENDAR: Action may be taken.
 - a. Approval of Meeting Agenda Order
 - b. Approval of Minutes Regular Meeting of May 18, 2022
- (Pg. 8) c. Approval of Minutes Special Meeting of May 25, 2022
- (Pg. 9) d. Approval to Purchase Two Network Switches not to exceed \$20,000.00

4. TREASURER'S UPDATE:

- (Pg. 10-14) a. **Treasurer's Report**: Review and acceptance of the Treasurer's Report for the period ending May 31, 2022. *Action may be taken*.
- (Pg. 15-27)
 b. Expense Approval Report: Approval of payments by check in the amount of \$1,089,238.03 representing check numbers 57662 through 57673 and electronic payments of \$705,752.20 by EFT for the month of May 2022 totaling \$1,794,990.23, and authorization of a similar amount allowing or adjusting for extraordinary budget or Board approved items during the month of June 2022. Action may be taken.

- (Pg. 28-49) 5. **PID STAFF & CONSULTANT REPORT UPDATES**: Verbal and written report updates from staff and consultants. *Informational Report Updates. Direction may be given.*
 - a. Options Study Update
- (Pg. 28-29) b. Strategic Plan Progress Report
- (Pg. 30-36) c. Customer Service Activity Report
- (Pg. 37) d. Field Operations Staff Report
- (Pg. 38-41) e. Water Treatment Plant Staff Report
- (Pg. 42) f. Engineering Reports
- (Pg. 43-49) g. Water Supply Recovery Program Update: Progress update provided by Water Works Engineers
 - h. Post Fire Disaster Public Assistance & Recovery Management Services Update: Verbal update provided by Nicole Maddox Aptim Environmental & Infrastructure.
 - 6. **UNFINISHED BUSINESS –** None to report
 - 7. **NEW BUSINESS:**
- (Pg. 50-52)

 a. Lobbyist Services Recommendation to End Existing Agreement (Manager Tom Lando):
 Authorize staff to end the existing contract with Broad & Gusman and provide approval to engage their professional lobbyist services on an hourly basis for limited lobby work PID may need in the future. Action may be taken.
 - b. Budget Workshop:
- (Pg. 53-58)

 1. **PID Fiscal Year 2022-2023 Draft Budget** (Brett Goodlin): Review and consider adopting the Paradise Irrigation District Financial Plan Proposal for fiscal year 2022-2023. *Action may be taken.*
 - 2. Long-term Fiscal Planning review and discussion. Action may be taken.
- (Pg. 59-60)

 3. **Monthly Service Charge Non-Participating Parcels** (Manager Tom Lando): Consideration to authorize the District Manager to start the process to charge non-participating parcels a uniform rate and authorize the expenditure of up to \$100,000 for necessary professional services. *Action may be taken*.
 - 8. **DIRECTORS' COMMENTS**: Information Item Only.
 - 9. ADJOURNMENT OF MEETING

CONSENT CALENDAR REGULAR MEETING PARADISE IRRIGATION DISTRICT BOARD OF DIRECTORS

WEDNESDAY, JUNE 15, 2022 - 8:30 AM

- A. APPROVAL OF MEETING AGENDA ORDER
- B. APPROVAL OF MINUTES REGULAR MEETING OF MAY 18, 2022 <u>Action Requested</u>: Approve Minutes for the regularly scheduled meeting of the Board of Directors on May 18, 2022.
- C. APPROVAL OF MINUTES SPECIAL MEETING OF MAY 25, 2022

 <u>Action Requested</u>: Approve Minutes for the special Board of Directors Meeting on May 25, 2022.
- D. APPROVAL TO PURCHASE NETWORK ETHERNET SWITCHES <u>Action Requested</u>: Approve purchase of two ethernet switches from Vista Net, Inc. for an amount not to exceed \$20,000.00.

MINUTES

REGULAR MEETING BOARD OF DIRECTORS PARADISE IRRIGATION DISTRICT MAY 18, 2022

The regular meeting of the Board of Directors of the Paradise Irrigation District (PID) was called to order at 6:30 p.m. by President Shelby Boston, followed by a reflection and the Pledge of Allegiance to the Flag of the United States of America.

OPENING

ROLL CALL

BOARD MEMBERS

Directors Bob Matthews, Alan Hinman, Brian Shaw, Vice

PRESENT:

President Marc Sulik and President Shelby Boston

BOARD MEMBERS

ABSENT:

None

STAFF PRESENT: District Manager Tom Lando, Assistant District Manager

Mickey Rich, Finance & Accounting Manager & Treasurer Brett Goodlin, District Engineer Blaine Allen, Administrative Assistant Sarah Fenton, and Secretary Georgeanna Borrayo

ALSO PRESENT: Consultants Sami Kader, Colleen Boak, and Esmeralda Diego

with Water Works Engineers.

No public comments were received.

PUBLIC PARTICIPATION

Board members reviewed consent calendar items as follows

3.a. Approval of Meeting Agenda Order

3.b. Approval of Minutes - Regular Meeting of April 20, 2022

APPROVAL OF CONSENT CALENDAR (Item 3.a. – 3.b.)

It was moved by Director Hinman and seconded by Director Sulik to approve the Consent Calendar as presented.

AYES: Directors Matthews, Sulik, Hinman, Shaw, and Boston

NOES: None ABSENT: None **Motion passes 5-0**

Board members reviewed a written Treasurer's Report presented by Finance & Accounting Manager / Treasurer Brett Goodlin for the period ending April 30, 2022, highlighting the district's cash position, debt service analysis, operational overview, and recovery funding. Treasurer Goodlin further confirmed the Fire Victim Trust has issued partial settlement funds to the District, which is 45% of PID's approved claim amount of \$189,485,000.

ACCEPTANCE OF TREASURER'S REPORT FOR PERIOD ENDING APRIL 30, 2022 (Item 4.a.)

It was moved by Director Shaw and seconded by Director Hinman to accept the Treasurer's Report for the period ending April 30, 2022, as presented.

AYES: Directors Matthews, Sulik, Hinman, Shaw, and Boston

NOES: None ABSENT: None **Motion passes 5-0** ACCOUNTS
PAYABLE
EXPENSE REPORT
APPROVED FOR
THE MONTH OF
APRIL 2022
(Item 4.b.)

Board members reviewed accounts payable expense reports for the month of April 2022. It was moved by Director Matthews and seconded by Director Shaw to approve General Fund check numbers 57636 through 57655 for the month of April 2022 totaling \$1,341,847.11, exclusive of voided check number 57640, and authorization of a similar amount allowing or adjusting for extraordinary budget or Board approved items during the month of May 2022.

AYES: Directors Matthews, Sulik, Hinman, Shaw, and Boston

NOES: None ABSENT: None **Motion passes 5-0**

INFORMATIONAL PID STAFF AND CONSULTANT REPORT UPDATES (Item 5.a. – 5.h.) Board members reviewed written Staff Report updates provided in the Agenda packet. District Manager Tom Lando announced an Options Study Public Meeting will be held on Tuesday, May 24, 2022 from 6:00 p.m. to 8:00 p.m. in the Paradise Irrigation District (PID) Board Meeting Room to present the draft Town of Paradise Options Study dated April 2022 submitted by GEI Consultants, Inc. Advance registration is requested to attend this meeting remotely via Zoom, or to attend in person. Registration information, as well as the Draft Options Study is available on the PID website at www.pidwater.com/options.

Director Sulik commented on the retirement announcement in the Water Treatment Plant Staff Report and acknowledged Ken Capra, Treatment Plant Operator (30 years), and Laura Capra, Water Quality Technician (28 years) for their contributions and service to the Paradise Irrigation District.

Water Works Engineers presented an update regarding the Water Supply Recovery Program and highlighted the following: Metered Interim Water Service, Meter Installation and Service Lateral Replacement Program, Water Quality Assurance Monitoring, Main Replacement Project, and Reservoir B Replacement Project.

Discussion regarding the Meter Replacement Program noted approximately 1,600 meters have been installed from the start of the project. While steps to coordinate advance notification to customers when they will be without water have been made, additional notification concerns have been raised. Water Works Engineers will further review this process with the Recovery Program Team and contractor to investigate additional approaches regarding customer outage notification and provide an update to the Board.

Water Quality Assurance Monitoring continues to show regulatory compliance and the absence of fire related VOCs in the water distribution system mains being tested. While this program is slated to be completed this fall, the District's ongoing regulatory water quality monitoring practices will continue. PID staff will work with the Community Relations Committee on messaging to customers regarding this information and what steps may be taken to notify PID of any questions or concerns.

COMMITTEE REPORTS (Item 6.a. – 6.c.) <u>Finance Committee</u>: Committee members reported a Request for Proposal for Investment Advisory Services has been issued May 18, 2022. The due date for proposals is June 24, 2022, at 3:00 p.m. .local time.

<u>Community Relations Committee</u>: Discussion at the May 10 meeting included the PID Voice of the Customer Survey, planning items for the annual Consumer Confidence Report, water quality, and review of the PID newsletter. The next committee meeting will be held on July 12, 2022 at 8:00 a.m.

<u>ACWA Spring Conference</u>: Director Hinman reported attending a Cyber Security discussion that was very informative. Assistant District Manager Mickey Rich confirmed the District is very diligent about cyber security and take many precautions. An action plan is outlined in the District's emergency response procedures and a security review has recently been completed. Board members recommended placing an item on the June agenda to receive a cyber security update.

CONTINUED – COMMITTEE REPORTS

No unfinished business to report.

UNFINISHED BUSINESS

District Engineer Blaine Allen reported the Town of Paradise is embarking on a massive on-road rehabilitation project to be completed over the next few years. To ensure the District's valve cans are not paved over or lost by the Town's contractors, PID staff recommends we employ our own contractor to survey all the valve cans within the project scope. This will not only ensure the valve cans are accessible after construction, it will also provide an accurate location of valve cans, which will be set on the District's GIS mapping system in the future.

NEW BUSINESS:

GIS ON-SYSTEM VALVE TAGGING LOCATION PROJECT (Item 8.a.)

It was moved by Director Shaw and seconded by Director Hinman to authorize the District Manager to enter into an agreement with Water Works Engineering to survey the District's valve cans not to exceed \$257,934.00, and an additional 15% contingency funding totaling \$38,690.00.

AYES: Directors Matthews, Sulik, Hinman, Shaw, and Boston

NOES: None ABSENT: None **Motion passes 5-0**

Assistant District Manager Mickey Rich noted as part of PID's approach to discouraging water waste, the 2020 version of our Urban Water Management Plan states the Board of Directors shall confirm the permanent wise water use regulations annually.

ANNUAL CONFIRMATION OF WISE WATER USE REGULATIONS (Item 8.b.)

In light of 2022 being a dry year and California requirements for continued water conservation, staff recommends implementing Stage 1 restrictions in PID's Water Shortage Contingency Plan. The State of California is asking all agencies to move into Stage 2, which would be up to 20% rationing. Without our metering system, we cannot realistically monitor and do 20% rationing; however, we can expand our outreach to customers regarding water conservation.

It was moved by Director Shaw and seconded by Director Sulik to confirm the District's Wise Water Use Regulations as presented.

AYES: Directors Matthews, Sulik, Hinman, Shaw, and Boston

NOES: None ABSENT: None **Motion passes 5-0**

District Manager Tom Lando reported on May 3, 2022 the District issued a Request for Proposal from consulting firms experienced in the review and analysis of salary and overall compensation systems. Proposals were requested no later than 10:00 a.m. local time, May 17, 2022. Staff does not have a recommendation to present as no proposals were received and will further review and evaluate options. **No Board action taken.**

SALARY SURVEY & COMPENSATION STUDY (Item 8.c.)

DIRECTORS'
COMMENTS
(Item 9)

Director Hinman: Commented on the recent loss of a relative and mental health awareness.

President Boston: Indicated there is a lot of vegetation and scotch broom around PID's water storage tank C and noted receiving an inquiry regarding a vegetation management plan to remove this vegetation.

ADJOURNMENT OF **MEETING**

There being no further business, it was moved by President Boston to adjourn the meeting. The regular meeting of the PID Board of Directors was adjourned at 7:55 p.m.

Georgeanna Borrayo, Secretary

Shelby Boston, President

Treasurer's Report – May 2022

- 1. Cash Position At 05/31/2022 the District's total cash position was \$92,206,868.
 - a. \$73.5M is safely held in the District's LAIF account earning nominal interest.
 - b. Treasurer is actively working with Tri Counties Bank to set up a nightly sweep account to earn nominal interest for the \$18.7M sitting in the operations account until an investment advisor is selected and can actively manage the District's investments.

2. Debt Service Analysis

The District's total outstanding debt is \$3,665,000 with a weighted average rate of 2.05%. Over the course of the remaining loan schedules, we will pay \$231,000 in interest. I suggest we hold off on paying the debts off because the rate is low, and we will likely earn close, if not more than 2% once the District begins actively investing.

3. Customers

As of May 31, 2022, the District has 4,242 active accounts and 4,616 active, but sealed, accounts. There are 1,775 inactive accounts that have been permanently disconnected.

4. Revenues

The District has yet to collect the \$592k in utility location fees from PG&E under an agreement signed last calendar year. District staff has been in contact with PG&E sourcing and payment staff regarding the payments due.

5. Expenses

Staff is actively exploring and speaking with vendors to find ways to minimize costs. This month we have identified and will realize about \$7,800 over the course of a year in utility costs. Further investigation into preparing a RFP for solar panel installation on our buildings continues.

6. Recovery Funding

The District is in communication with insurance and working towards a final settlement and payout on property destroyed in the Camp Fire over 3 years ago. Amendments to FEMA projects are being considered as recovery efforts towards insurance payouts is not fully likely as previously anticipated.

Objective: Enhance Operation Efficiencies	Operations				
Objective. Enhance Operation Eniciencies	Objective: Enhance Operation Efficiencies				

The Paradise Irrigation District will be the Gold Star Standard of business models. We will provide exceptional service to our customers and a quality product. Our financial independence will be the result of our innovative approach to the development of new products and or lines of service in tandem with precision financial and operational management. | We will prioritize our team members by investing in their work environment and providing opportunities for their future development and advancement. We will be dedicated and productive community partners, and as the regional People's Water District we will be leaders in sustainability, maintaining a net-neutral to net-positive impact on the environment.

May Customer Comments

05/09/2022 ~ "Excellent customer service."

Customer Service - Improved Communication Processes Report Updated 06/08/2022

Communication

- When a property changes ownership the customer is sent a new owner letter informing them
 of their billing schedule and water quality. Included in this correspondence is a welcome
 magnet with our phone number.
- Office staff inform customers of the approximate timeline for water installation and notify customers by telephone once their water service is connected.
 - The field and contractors are responsible for communicating any delays to office staff. This process is evolving, and the team has identified areas for improvement.
- o The office manager and one customer service rep attend the weekly meter project meeting.
- Customer service has received training from water treatment staff and more training is scheduled. Field and Water Treatment staff have scheduled training sessions to keep office staff informed and educated on water quality and field processes. This training helps office staff better answer a customer's technical questions.
- WaterWorks has developed an information spreadsheet to streamline information flow. This tool has become invaluable in answering our customer's project-related questions.
- Difficult questions and water request delays are escalated to the office manager who coordinates resolution with the field, contractors, and customer.

• Written Communication Improvement

- Mass correspondence, when time allows, is sent to the community relations committee and board for review.
- The following rubric has been developed for internal review:
 - Friendly and professional consistency
 - Absent of internal jargon
 - Clarity of dates and deadlines
 - Test for all the following components: who, what, when, where
 - Formatting that directs the reader's eye to any required action.
- Staff preparing backflow deadline notice
 - Approximately 500 customers will be noticed of the upcoming June 30, 2022 deadline for backflow device compliance.

Escalation of water service requests

- Service is installed as requested, or escalated
 - Level 2 Escalated to a crew to attempt to resolve
 - These are usually cases where the service line cannot be located and a large number are resolved.
 - Level 3 Requires significant work including mainline work that will need to be scheduled as a project.
 - Complete: RCI has brought on a third service lateral replacement/ meter install crew.
 This crew will focus on new water requests with the goal of eliminating long wait-times for new water requests.

- Meter shop supervisor is performing site assessments daily to identify any potential challenges with water installation. Information is reported back to customer service personnel and the customer is notified right away of any potential issues or delays.
- Our district engineer, Blaine is performing the meter installation evaluation and available to answer customer questions at the counter. Customer service reps indicate having Blaine here and available has eliminated some customer frustration and the time to get orders processed has improved greatly.

Water use charges communication

- Training has occured in May and June Management creating training program for customer service to support water use related calls.
- o Developed communication letter for customers
- Developed FAQ
- Developing Web / Social Media / Email content
 - Water use tour occurred during February and March. Tonya will be presenting to the Rotary club at the end of the month.

Billing

- New this month: On May 27th Customers with completed meter installs received a letter printed on blue paper (we're calling it the "blue letter") informing them of their estimated billing based on the last 30 days usage. The letter also informs them of when their first billing period begins and when to expect their first bill with billed water consumption. Customer service indicates they have received very few inquiries about the letter or complaints. Most callers are thankful for the information. Some customers who have multiple accounts have questioned why they are getting billed before their other accounts. Customer service staff has done an excellent job of explaining the process and have resolved all concerns without the need for escalation.
- New this month: In review with technology partner: Office staff are working to revise the bi-monthly bill (attached) incorporating comments and suggestions from the community relations committee. We do not have an estimated timeframe for roll-out.
- Office staff made changes to allow for a single cycle of billing effective May billing. Currently, customers receive bills on the 15th and the 20th. The change will consolidate bills for property owners with multiple accounts into a single billing and envelope. Bills will be mailed the 15th of each odd month and due the 15th of every even month. The pay period has also been improved. Customers now have 30 days to pay without penalty instead of 25.
- Past-due customers received automated telephone calls on Monday, May 9, 2022, providing them with a week's notice to pay the past due portion of the bill to avoid the minimum \$10.00 late penalty. Customer service is working on a plan to promote the notification feature which, if selected, would allow for customers to receive a text instead of a phone call.
- O In early April two forms of communication were implemented for all interim backflow customers who have the extra water faucet on their temporary backflow advising them that the permanent connection will not include the water faucet. Customers receive a handout left at the property and received a letter in the mail. The communication included instructions on hooking up to the existing backflow to avoid possible interruptions when their permanent device is installed.

- In May, approximately 840 customers received a backflow letter to meet the District's June 30th deadline. The letters were a mix of the following: Standing homes with no previous backflow.
 Customers with a pre-fire backflow who need to upgrade, IWS customers who have not signed up for maintenance.
- New this month: Waterworks has developed a plan to notify customers of upcoming water interruptions that occur when RCI is installing their new meter /service lateral. Requires Board approval.

STAFF REPORT FIELD OPERATIONS May 2022

TRANSMISSION & DISTRIBUTION

DAILY OPERATIONS

- PID crews have been taking care of leaks, emergencies, and maintenance issues.
- 21 scheduled main line and service line leaks repaired this month.
- Call Center received 85 after hour calls.
- · Standby received 26 calls.
- 19 emergency calls due to contractors.
- Completed 2,425 USA tickets.

SERVICE LINE REPLACEMENT / WATER REQUEST

- 41 IWS Backflow devices installed.
- 46 Flow tests performed.
- 10 Service lines replaced.

CUSTOMER REIMBURSEMENT JOBS (by work order)

Working on several new Meter Estimates.

PROJECTS

- Coordination continues with RCI and Water Works Engineering (WWE) to keep the Meter Installation and Service Lateral Replacement Project (MISLR) Project running smoothly.
- Crews have completed the District's portion of the Town's GAP project.
- Several employees are scheduled for the distribution operator exam.
- We have had some movement within the company, from distribution to the treatment plant.
- I am currently working on future plans for PID's vehicles.

SUMMARY

One employee recently obtained his Class A Driver's License after a lengthy seven-week class.

One employee has passed their D2 test. Three additional employees scheduled next month to take their D2 certification tests with the State of California.

The distribution employee selected for the Treatment Plant Operator vacancy has transitioned into this position.

Crews replaced and relocated four hydrants for the Town's GAP project.

We are exploring options to see if we can find a way to get rid of our Class A vehicles, but still haul equipment and material without disrupting field operations.

We are working towards implementing a vehicle replacement program.

With the Reservoir B Replacement Project gaining traction we are having to look for other places to store older vehicles, pipe and fittings, and a new dump site for our vac units.

STAFF REPORT

WATER TREATMENT PLANT

May 2022

WATER TREATMENT

- Production at the District's treatment plant for the month of May varied between 2.0 and
 4.4 mgd, with the average day being 3.4 mgd.
 - O Compared to:

	pre-fire May 2018	May 2020	May 2021
Low	2.9	1.7	3.3
High	5.5	3.8	5.0
Avg.	4.5	3.0	4.4

- Treatment Plant remains closed to the public due to the pandemic. Treatment personnel do
 our best to keep the plant disinfected and to social distance both at work and at home. We
 are such a small group we cannot afford to have someone sick.
- Completed required monthly reporting to Department of Drinking Water and Regional Water Control Board. Wrapping up annual reports for 2021, Consumer Confidence Report (CCR) due in June.
- Tesla completed the battery system at the Pump Station, we are now waiting on PG&E to install a new transformer so that they will allow the system to go online. PG&E has to install a dual meter head system at the treatment plant to allow for monitoring of the system. Once that is done, Tesla can do some more testing of the system required before it can be considered complete.

D Tank Well

We repaired the weather head that supplies power to the well. It was destroyed by a tree
that fell on the service drop and ripped the weather head off the pole. PG&E restored
service to the panel.

Staffing

- Austin Stack and Rebekah Sorensen started working at the Treatment Plant in early May.
 They are being trained in operating the plant and will begin working "shifts" in June (running the plant over 24 hr. periods).
- Still working on Filter 1A repairs, other small repairs have taken priority and the fact we
 don't have a day operator while the new operators are being trained.

MAGALIA/PARADISE DAMS

- Monthly monitoring of piezometers at Magalia and Paradise dams was performed and reported to our consultant.
- Annual surveying of the dams (for movement) was completed early May.

WATER QUALITY - DISTRIBUTION SYSTEM

- * Surveillance Monitoring of the distribution system (started September 2020) and will be wrapping up in the next couple of months. By the end of May, we had performed 1,743 surveillance samples of the system. Of those, only one sample had a detect for Benzene, but when resampled, was non-detect. These results are continuing to be very promising.
- Routine Sampling 4 Bacteriological samples are taken each week at locations throughout the Distribution system. They are analyzed for Total Coliforms, Fecal Coliform & E. Coli.
 These samples verify the potability of the water in the system.

May 2022, WATER QUALITY

• Average daily production: 3.4 mgd

• Average effluent turbidity: 0.04 ntu

Average raw water turbidity: 0.51 ntu

Agenda Page 41

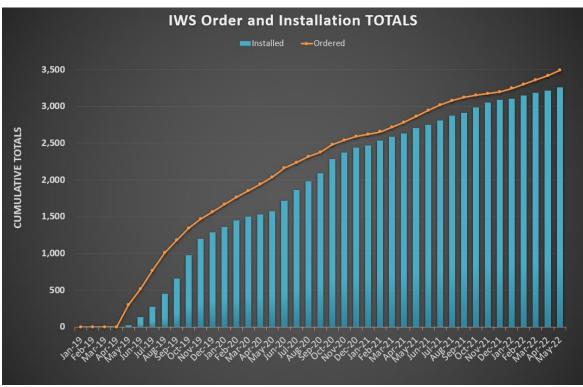

District Engineering Update for the Board of Directors June 9, 2022

- 1. New intern Brandon Mortimer started on June 6th.
- Multiple Design Review Requests completed for the Town of Paradise.
- 3. Creating path forward for determining customer owned backside piping material to determine if there are lead lines on the customers side in our system. So far, this has been a collaborative effort with assistance from Water Works and PID staff.
- 4. The Town of Paradise has given a date for the proposed start of their on-system road work. I am coordinating with Water Works Engineers (WWE) to get customers with requests for water that need a service lateral replacement completed before the start of construction on those sections of road.
- 5. Working with customers and providing estimates to provide new water meter services to multiple locations throughout town.
- 6. Attended meeting with Town of Paradise representatives to discuss how we perform water flow tests and path forward to help customers building new homes get the correct information needed to properly design their fire protection systems.
- Coordinated with Water Works Engineers on MISLR 2 and other projects. I am very pleased with Water Works and they prove on a daily basis, what a great asset they are as a contractor for PID.

Metered Interim Water Service

MIWS orders in May increased to 80/mo. 48 installations were completed in May as PID crews refocused effort to the MIWS installations. The increased MIWS orders outpaced installs in May and the backlog continued to build. While some MIWS orders are resolved with a permanent install (as zone work is completed or if a building permit is applied for at that address), a significant number of the MIWS orders have no building permit associated with them.

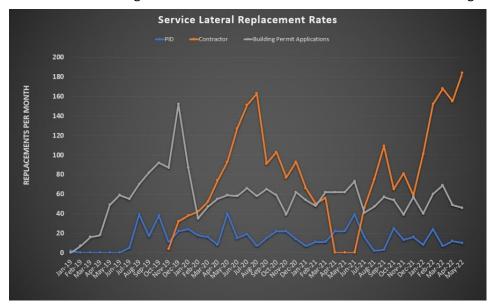

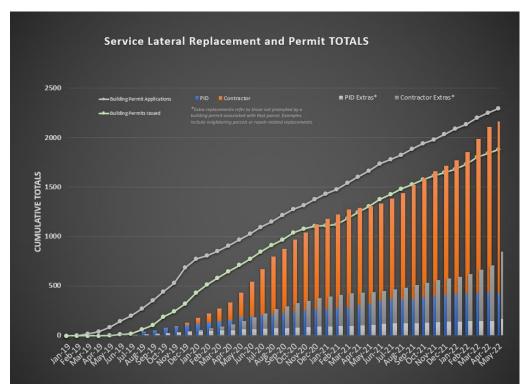

Meter Installation and Service Lateral Replacement Program

In May the Meter Installation and Service Lateral Replacement (MISLR) Project continued to increase production rate to over 180 service laterals replaced, the highest production rate since the beginning of the recovery project. At the same time, new permit applications at the Town of Paradise dropped to 46/mo, below the 2-year average of 56/mo. Focus continued in May on service lateral replacements for customers with building permit applications. As of June 8 the total number of locations where a building permit application has been submitted which have had their service lateral replaced was 2170 out of 2314 building permits applied for to date. The average time for the Town of Paradise to move from building

permit application to approval is 7 weeks. We are currently replacing service laterals within 6-8 weeks of the Town receiving a building permit application from a customer. At this point, for most cases, PID customers apply for a building permit are getting a new service lateral in the same timeframe as their building permit application is approved.

Customer Outage Notification

At the May meeting of the Board of Directors, it was requested that the Recovery Program Team investigate ways that customers can be notified when water service outages will occur at their service. At this time, we notify customers via letter when we are beginning work in a zone (approximately a 4-6 week window). Where possible, when the Water Works Engineers construction observation staff arrive at a new site, they attempt to make contact with the homeowner to let them know what is happening and what to expect. Each Water Works Engineers construction observation staff member is assigned to two construction crews, so this is not always feasible.

The Board directed the Team to investigate the feasibility of noticing customers the day before their outage occurs. The entire team, including PID Operations, Customer Service and Management, Water Works Engineers and RCI Construction has worked on this issue in the intervening month and has the following to report. The following are summaries of three approaches which have been developed. More detail can be shared upon request.

- 1. **Day-before door hanger notification.** This approach seems simple on its face at the end of the day, have someone hang door hangers at the addresses on the list for the next day. What drives the challenges below is the variability in daily production rate. On any given day, a single crew may complete anywhere between 2 and 6 meter and backflow installations.
 - **Challenges:**
 - a. False/Repeat Notifications and Non-Notifications.
 - i. If we notify an optimistic number of customers, we will have significant numbers of false/repeat notifications.
 - ii. If we notify an under-estimate of customers and complete that work early in the day, we either stop work and drastically reduce our overall production rate, or we continue work and have non-notifications. Although this is no different than now, the system will leave some people getting notified and other not getting notified.
 - b. This is the most expensive approach for additional personnel costs.
 - c. This would likely cut production significantly (as much as 50%) and extend the overall project time.
 - d. The extended project time would result in additional overhead cost in addition to the labor costs.
 - e. Could generate more customer complaints given the high likelihood of false/repeat notifications or non-notifications to some customers.
- 2. Week-before door hanger notification. Because there is less variability in weekly production rate, weekly notification was considered by the team because it would result in far fewer false/repeat notifications or non-notifications. In discussions regarding week-before notification, the team identified the following enhancements to week-before notification:
 - a. Door hanger notification starting on Thursday/Friday for the beginning of the following week, with additional notification on Monday/Tuesday for later in the week.
 - b. A mid-week (Wednesday/Thursday) update to add notifications or modify notifications to the following week as needed, in response to early-week production rates.
 - c. An offer on the door hanger for the customer to call PID Customer Service if they want to receive a call when the crew is on the way to their location. The customer would leave the most effective phone number for the call to go to for that address. They would be flagged in

our data management system by customer service and RCI would relay to their field supervision personnel to call that customer when they were on the way to their house.

Challenges:

- a. While this is more notice, it is still only narrowing the window of shut-off to one week which may not address the concerns of the customers who are not satisfied with the current system.
- b. With the invitation to call customer service on the door hanger, this approach could result in increased call volume to customer service. More resources may be needed or customer service response to other issues could suffer.
- c. Cost: \$8k/week, \$350k for the remainder of the MISLR project. This also sets a precedent for future projects, adding cost to those as well.
 - i. The increased cost would likely be FEMA eligible but does not change the total limit on the FEMA grant, so would mean that fewer service laterals could be replaced under the FEMA grant, especially as this notification system would be extended to future projects.
 - ii. This cost would use up a significant amount of the remaining project contingency for this project. Any future project challenges which required change orders would require Board approval and a change to the overall project budget.
- d. Ability to accommodate special requests: Currently, a significant and variable amount of the weekly workload is added after the week starts in order to accommodate special requests which come through customer service or from other sources (Town of Paradise request, etc.). These requests are currently all treated as top-priority and completed as soon as possible (often same-day). If we continue to accommodate those requests under this notification system, it would cause a significant number of false/repeat notifications which could lead to customer dissatisfaction. If we are selective about customer requests, we will need to develop criteria about which requests get prioritized and which don't. Right now, all are treated the same.
- 3. Improvements to the current communication regarding work zone activities and outage potential. In order to reduce the likelihood that a customer is surprised by a water service interruption, improvements to the current communication approach can be made. This could include:
 - a. Multiple notifications to customers during the time we are working in their Zone,
 - b. Using different communication channels

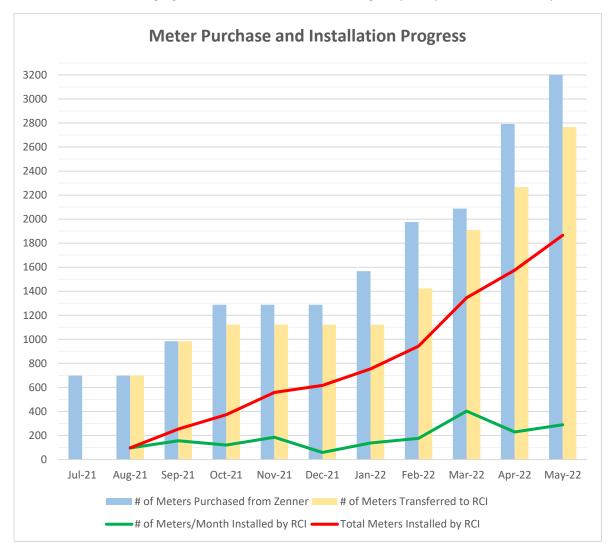

This approach would have minimal cost implications and would not affect production rate, but would hopefully have the effect of making more people aware of the potential for shutoff and reduce the number of people who have a negative experience regarding their water service shutoff.

Recommendation: The Recovery team met and discussed these approaches. Given the issues discussed above, particularly those issues related to production rate, cost/benefit and impact to the FEMA budget of approaches 1 and 2, the Recovery Team recommends proceeding with approach 3, tracking the effect of that approach on customer complaints regarding water service interruption notification, and then reassessing regularly going forward. If the issue of notification proves to be persistent and widespread, then the cost of approach 2 (weekly notification) may be worth moving forward with.

Meter Replacement Program

Through the end of May a total of 3,202 meters have been purchased from Zenner and 2,767 have been transferred to RCI. RCI installed 290 meters in May, totaling approximately 1,866 meter installations from the start of the project. Some of the backordered MIUs from Zenner have been received, the remaining MIUs are expected to ship in several orders through the end of July. MIUs are being transferred to RCI as they are received and once RCI has sufficient MIU quantities on hand they will go back to sites done before MIU training to complete MIU installation. Coordination between Zenner data and Tyler's interface continues to be challenging and PID staff have been meeting frequently with the two to try and resolve.

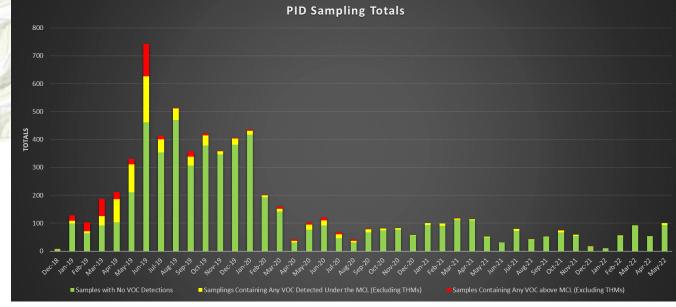

Water Quality Assurance Monitoring

Water Quality Assurance Monitoring continues to show regulatory compliance and the absence of fire related VOCs in the water distribution system mains being tested. The program is near conclusion and will transition to quarterly monitoring in conjunction with disinfection byproduct monitoring at the DBP monitoring locations.

Main Replacement Project

Phase 1 of the Main Replacement project has been clearly defined and we are moving forward in the development of the plans and specifications for bidding this work. The first phase main replacement project is expected to be bid in late 2022 and begin work in early 2023. Phase 2 and 3 are still being defined for coordination with Town of Paradise paving plans as much as feasible.

Reservoir B Replacement Project

Recent communication with the DFA continues to indicate that a funding agreement is imminent ("The draft agreement is cleared with our legal. It is now with our Deputy Director to file CEQA determination and sign off for an issuance. PID should receive it by the end of this month. PID will have 30 days to get legal opinion and sign the agreement before getting to us for execution.")

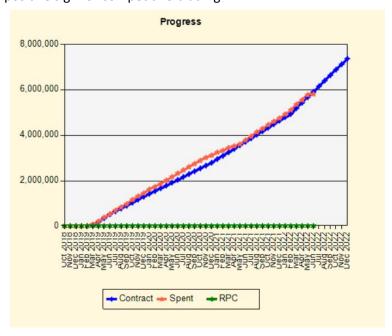

Per our discussion last month we have moved forward into the bidding process for the project (which includes both Reservoir B replacement and the power resiliency/solar project). The current overall project schedule is:

- A. The project advertised for bid on 5/23/22
- B. A mandatory Pre-Bid Meeting was held on 6/7/22
- C. Bid Opening: 1:00 pm on Tuesday 7/12/22
- D. Board Approval of Contract Award 7/20/22
- E. Anticipated Notice to Proceed before 8/1/22
- F. Substantial Completion of Photovoltaic Systems November 2022 (80 working days after NTP)
- G. Final Completion of Photovoltaic Systems December 2022 (100 working days after NTP)
- H. Substantial Completion May 2023 (200 working days after NTP)
- I. Final Completion June 2023 (220 working days after NTP)

At the mandatory pre-bid meeting on 6/7 we had 20 people in attendance including representatives from 11 different construction contractors, which is a positive sign for competitive bidding.

Budget

Burn rate and budget continues to proceed ontrack. Total billing for April was \$228,330, just below our current projected average burn rate of \$240k/month for the project through the end of 2022.

Paradise Irrigation District

"Paradise Irrigation District (PID) is dedicated to the business of producing and delivering a safe, dependable supply of quality water in an efficient, cost-effective manner with service that meets or exceeds the expectation of our customers." Please consider how this agenda item relates to our mission

DATE: June 8, 2022

TO: Board of Directors

FROM: Tom Lando, District Manager

Brett Goodlin, Finance & Accounting Manager

SUBJECT: Lobbyist Services Agreement - Retainer Ending

06/18/2022 Board of Directors Meeting

Recommendation:

Authorize staff to end the existing contract with Broad & Gusman and provide approval to engage their services on an hourly basis in the future as the need arises for limited professional lobbyist support services.

Background:

After the Camp Fire, Broad & Gusman was instrumental in helping secure PID's backfill funding of approximately \$14.6 million through its advocacy with the Legislature, Governor's Office, State Water Resources Control Board, Department of Water Resources, and other entities and continued to be a beneficial resource each legislative session.

The District entered into an Agreement with Broad & Gusman to provide professional lobbyist services effective March 1, 2020 on a month-to-month basis until the agreement is terminated. Either party may terminate the agreement with thirty days written notice. The District currently pays a fee of \$4,000 per month.

As the need arises, Broad & Gusman is willing to provide professional lobbyist services on an hourly basis for any limited one-off lobby work Paradise Irrigation District may need in the future.

PROFESSIONAL SERVICES AGREEMENT

THIS AGREEMENT is between Paradise Irrigation District (Client) and the Broad & Gusman (Contractor). Clients and Contractor agree as follows:

- 1. Services. During the term of this Agreement, Contractor shall perform professional services for the Clients which shall consist of legislative representation before the California State Legislature, the Governor's Office, and other administrative agencies of the State of California as may be deemed necessary by the parties. Such duties shall consist of reviewing legislation as introduced and amended, bill tracking, communication with members of the Legislature and staff including testimony at public hearings, preparation of such reports, newsletters, and other forms of communication as may be required by Clients, attendance at meetings with members and officers of Clients, and other such duties as Clients may deem necessary.
- 2. Compensation. Clients agree to pay Contractor a fee of \$4,000 per month, plus necessary expenses. Necessary expenses shall include, but shall not be limited to, reimbursement at the cost incurred by the Contractor for any cellular or long-distance telephone charges made on behalf of Clients, postage, reproduction of materials at \$.05 per page, reimbursement for automobile travel outside of Sacramento at the IRS approved rate, and any travel, lodging or meal expenses incurred on behalf of Clients. Travel, lodging and meal expenses shall not be incurred without the advanced approval of Clients. No expenses shall be charged above \$200 without prior approval of Clients.
- 3. Term. The term of this agreement shall commence on March 1, 2020 and shall continue on a month-to-month basis until the agreement is terminated. Either party may terminate the agreement with thirty days written notice. The parties may modify the terms of the agreement by mutual consent.
- 4. Contract Not Contingent. In accordance with the laws of the State of California, it is understood by the parties that neither the services described herein nor the payment for those services is contingent on the defeat or enactment of any legislation or administrative regulation.
- 5. Independent Contractor. Contractor, in performing services under this Agreement, shall act as an independent contractor and not as an employee of Clients. Nothing in this Agreement shall be construed to create a partnership, agency, joint venture, or employer-employee relationship. Contractor understands that Clients have no federal or state obligations regarding employment tax liability and Clients' total commitment and liability under this Agreement is limited to the payments set forth herein.
- <u>6. Entire Agreement.</u> This Agreement constitutes the entire agreement between the parties with respect to its subject matter. All prior negotiations, proposals, and agreements between the parties are included in this agreement.

7. Governing Law. This Agreement shall be interpreted under the laws of the State of California.

"Paradise Irrigation District (PID) is dedicated to the business of producing and delivering a safe, dependable supply of quality water in an efficient, cost-effective manner with service that meets or exceeds the expectation of our customers." Please consider how this agenda item relates to our mission

DATE: June 9, 2022

TO: Board of Directors

FROM: Tom Lando, District Manager

SUBJECT: Monthly Service Charge- Inactive Parcels

06/18/2022 Board of Directors Meeting

Recommendation:

Authorize the District Manager to start the process to charge inactive parcels a uniform rate and authorize the expenditure of up to \$100,000 for necessary professional services.

Background:

After the Camp Fire the Board decided through policy to temporarily exempt property owners without water service at that time (approximately 1,700 parcels) from paying any fees to the District. Another class of customers in the District are on a "sealed" rate of \$21.49 per month plus a \$0.50 Town hydrant fee. These sealed customers, like the temporarily exempt parcels, also do not currently receive active service. Over time, the distinction between temporarily exempt parcels and customers with sealed service have blurred and it is time to revisit prior policy to potentially establish and provide a uniform "inactive" customer class.

In my opinion, it is also time to charge all parcels within the District. Based upon the fiscal study done by Bartle Wells, the cost of this service to inactive parcels should be set at \$42.98 per month, plus the Town hydrant fee. Currently, our system gives the temporarily exempt parcels an advantage - stay off the system until the property is sold or developed and save multiple years of the sealed meter rate. There have even been instances when an exempt parcel enters active status, receives water for a short season, then pivots back to exempt/non-paying status. In my view, this is unfair to the District and other active and inactive customers.

This proposal will not impact anyone who is currently paying the District either the sealed or active rate; rather, the goal of this initial phase is to treat all parcels within the District equally.

The cost to accomplish this is a very rough estimate currently. The District may have to go through the whole Proposition 218 fee process requiring both professional assistance and multiple District wide mailings.

Estimated Revenue:

Should the Board decide to proceed, the anticipated revenue at the current rate (\$21.49/mo.) would be approximately \$438,000 annually and at the rate Bartle Wells concluded should be charged, would generate approximately \$876,000 annually.

I would add that there have been lot mergers since the fire and the actual number of parcels affected may be closer to 1,200 versus the 1,700. If two or more parcels have legally completed the process to merge, then only the new consolidated parcel would be subject to the inactive customer rate.
