WATER TREATMENT PLANT EQUALIZER TANKS RFP Addendum #2

Project Description: RFP for professional services to conduct an engineering study, design, environmental analysis, and permitting, for two new wash water equalization tanks at the water treatment plant. Each tank will have a 188,000-gallon capacity. The work completion date is April 7, 2023. The project will involve study, design, and contract plans, including but not limited to final drawings, and specifications for the construction of the improvements.

For: Paradise Irrigation District
6332 Clark Rd.
Paradise, CA 95969

Proposal Due: 3:00 pm, Monday October 3, 2022

Approved by: _____

Date Issue: September 20, 2022

Our water. Our future.

The following changes, additions and/or deletions are hereby made a part of the documents for the Engineering Design of the PARADISE IRRIGATION DISTRICT WATER TREATMENT PLANT EQUALIZER TANKS RFP as fully and completely as if the same were fully set forth therein:

PID has become aware of existing survey data that L&L surveying previously did at the Water Treatment Plant in 2015. This results in there not being a need to include the survey scope in the estimate as this survey information is available from PID in PDF and AutoCad form.

1. Section 3.2 Scope of Services, **remove** the following
 - a. Task 2: **Perform a topographic site survey by a licensed surveyor.**

PID received the following questions on this RFP during the Bid Period:

1. WRE is interested in bidding on the Paradise Irrigation District Water Treatment Plant Equalization Tanks RFP. Is there an incumbent you are already working with?

We have other projects where an engineering consultant firm is working with us. This project is separate and is open for any company who wants to bid and we will take all bids into consideration.

2. I would also like to know if there is a budget set for the project?

There is not an exact budget set up for this project, it is a part of PID's overall Capital Improvement Projects we are looking to complete.

3. Is it possible to get an extension on the due date for Proposals?

The due date for proposals has been extended to October 3, 2022 at 3:00pm

Our water. Our future.
